DataTrace® Compliance Certification

Mesa Laboratories, Inc is an accredited ISO/IEC 17025:2005 laboratory. DataTrace accuracy is assured through a comprehensive Quality Assurance Program, utilizing highly accurate calibration equipment capable of producing results traceable to NIST and through NIST to the International System of Units (SI), and well trained technicians following document controlled calibration procedures.

DataTrace software DT-Pro V1.1 was evaluated for conformance to function and performance specifications during the period from December 15, 2011 through December 27, 2011 prior to product release. The testing performed during the software evaluation was executed against the Compliance and Validation Plan for DataTrace Pro V1.1. Specifications include full compliance with the FDA electronic signature rules, 21 CFR Part 11.

The results of this testing demonstrated that the software conformed to applicable performance and functional specifications. Test results are documented within the applicable sections of the validation package.
